- 4.22.15 | 1-3pm | Lake Havasu
- 4.23.15 | 10-12pm | Quartzsite

The First Responder Network Authority (FirstNet) was created to take all actions necessary to ensure the building, deployment and operation of the first nationwide broadband network dedicated to public safety. AZ FirstNet is responsible for ensuring Arizona public safety agencies are aware of FirstNet, the nationwide public safety broadband network, and are kept up to date on important milestones surrounding the buildout of the network.

AZ FirstNet is hosting Spring meetings around the state and inviting all agencies to attend. As part of the planning process, agencies are encouraged to ask questions and provide input to ensure their voice is heard in the buildout of the network in Arizona. In addition, AZ FirstNet is gathering data from agencies to ensure FirstNet is aware of the coverage, capacity and unique needs of Arizona state, local, federal and tribal public safety agencies, as well as those entities that support and work with public safety.

Please forward this invitation to Police, Fire and EMS agency representatives to include decision makers, dispatch, finance/budget, strategic planners, as well as IT, Elected Officials, Emergency Management and other Governmental agencies such as transportation, public works, utilities, parks, forest service, etc.

FirstNet Vision

To provide emergency responders with the first nationwide, high-speed, wireless broadband network dedicated to public safety
